TEEMATE · TESTING BEFORE A DEMO

What’s tested, and how it went

Run on 27 October 2026. Every feature, each situation it’s tested in, and the result of the latest run; then the tests that apply across the whole app; then a checklist to tap through on a phone before a demo.

32	114	96	1,323	652
features	situations tested	journeys tapped through	app tests	database checks

Everything passed. 1,323 app tests and 652 database checks on the test database.

How the testing works. Journeys tap through the real app on a pretend server as each kind of person (member, organiser, captain, club office, halfway hut staff, visitor, new joiner). For every way the server can say no, each journey checks the message is seen, the screen isn’t stuck and nothing is half-saved. **Same rules on both sides** (29 rules) checks the pretend server keeps the real database’s rules. **Database checks** run on the test database as each person.

Real phones and iPad sizes (npm run test:screens) last run 11 Oct 2026, 06:43: 31 screen checks at 1 sizes, no problems.

Part 1 · Feature by feature

BOOKING

Book a tee time

Members book a time on the tee sheet with friends and guests. Times open on a set day and hour; nobody can be booked twice within two hours.

Tested in this situation	Result
Book with a friend; the booking shows for both Journey: book-tee-time · src/test/journeys/journeys.test.js › 1. Book a tee time with a friend	14 passed
Book a guest from another club, using guest points src/test/journeys/journeys.test.js › 2. Book with a friend from another club as a guest (their details filled in) · src/friend-link.test.js › not enough guest points: other-club friends are greyed out	2 passed
Days not open yet are refused, with when they open supabase/tests/release.sql › Before release: a member is refused, with when it opens · src/release.test.js	18 passed
Today starts at the time now; members can’t book a time that has gone (the office still can) src/test/journeys/features.test.js › today starts at the time now: times already gone aren’t listed (so they can’t be booked, and no scrolling past them) · supabase/tests/passed_times.sql › Passed: a member can't book a time that has gone today · supabase/tests/passed_times.sql › Passed: the club office still can	3 passed
Two hours apart: refused closer, allowed after Same rule on both sides: booking-two-hours-fine · supabase/tests/bookings_cards.sql › 2 hours: 2 hours 10 minutes later is fine	3 passed
Every refusal while booking is seen, nothing half-booked Journey: book-tee-time	13 passed

BOOKING

My bookings: cancel and change

Members see their bookings and cancel them, or take one person off one they made. Cancelling a booking with scores warns first and takes the scorecard with it.

Tested in this situation	Result
Delete a booking (two taps) Journey: cancel-booking	3 passed
A club singles match (knockout or club event) holds the other two places: “Autumn Knockout match”, nobody else can book them Journey: book-club-match · src/test/journeys/features.test.js › a club knockout: the other two places are held for the match, and the time is full for everyone else · src/test/journeys/features.test.js › a club event’s singles match holds the places too · supabase/tests/match_hold.sql › Hold: nobody else can book the held places	20 passed
Only club 1 v 1 matches hold places; a held booking moves with its hold and opens up if a player leaves src/test/journeys/features.test.js › a members’ own knockout doesn’t hold places: the usual open spaces · supabase/tests/match_hold.sql › Hold: a pairs match doesn't hold places · supabase/tests/match_hold.sql › Hold: an office move takes the held places with it · supabase/tests/match_hold.sql › Hold: when a player withdraws the held places open up	4 passed
Add a player (a fourth, say) to a booking I’m on, even one someone else made; they’re told Journey: add-to-booking · src/test/journeys/features.test.js › someone else booked me with two others: + Add a player, pick a member, and they join the same booking · supabase/tests/add_to_booking.sql › Add: the new player is told who booked them in	17 passed
A full time has no + Add a player; adding to a full time is refused src/test/journeys/features.test.js › a full time: no + Add a player · supabase/tests/add_to_booking.sql › Add: a full time is refused	2 passed
Take one person off a booking I made (two taps); a guest’s points come back; the last one off deletes it Journey: remove-from-booking · src/test/journeys/features.test.js › a guest: their guest points come back · supabase/tests/remove_from_booking.sql › Take off: taking the last person off deletes the booking	7 passed
Only whoever made the booking can take people off src/test/journeys/features.test.js › a booking someone else made: no Remove buttons (I can only withdraw myself) · supabase/tests/remove_from_booking.sql › Take off: only the member who made the booking	2 passed
A booking with scores: warned, and the scorecard goes too src/test/journeys/journeys.test.js › 3. Delete a booking that has scores: warned, and the scorecard goes too · supabase/tests/card_delete.sql › Delete confirmed: the scorecard goes too	2 passed
Rearrange a team match’s booking to another time Journey: move-match-booking · src/test/journeys/journeys.test.js › 5. Book your match from the event, then rearrange it	20 passed

BOOKING

Made by TeeMate on Home

A quiet maker’s mark at the foot of Home (and sign-in and Account), which opens about us.

Tested in this situation	Result
On Home, tappable src/test/journeys/features.test.js › a quiet maker’s mark at the foot of Home, which opens about us	1 passed

BOOKING

Add playing partners by scanning their QR code

In booking, Scoring → Players and Friends, scan the QR on someone's Account card instead of searching. The camera opens again for the next person until the group is full. Club members join the group; TeeMate players from other clubs join a booking as guests. Each is kept as a friend.

Tested in this situation	Result
Booking: a club member, then another club's player as a guest, back to back src/test/journeys/guest-check-in.test.js › booking: scan a club member, then a player from another club (a guest, details filled in); the camera opens again for each · src/test/journeys/guest-check-in.test.js › booking: scanning someone already in the group says so	2 passed
Scoring → Players: club members onto the card; other clubs told to come through a booking src/test/journeys/guest-check-in.test.js › Scoring → Players: scan club members onto the card, one after another · src/test/journeys/guest-check-in.test.js › Scoring → Players: someone from another club is told how they join a card	2 passed
Friends: scan to add friends src/test/journeys/guest-check-in.test.js › Friends → Find members: scan to add friends, one after another · src/member-card.test.js	9 passed

BOOKING

Guest check-in at the club office

For guests who weren't booked in the app, the office scans the member's card (or finds them by name), adds up to 3 guests and charges their guest points. Today's check-ins can be removed again.

Tested in this situation	Result
Scan a card, add two guests, 6 points charged src/test/journeys/guest-check-in.test.js › the office scans a card, adds two guests, and 6 points are charged · Journey: office-charge-guests · supabase/tests/guest_check_in.sql › Check-in: two guests charged, points left is right	8 passed
A card that isn't ours, or whose name doesn't match, is refused src/test/journeys/guest-check-in.test.js › a card that isn't ours is refused · src/member-card.test.js · Same rule on both sides: checkin-card-name	11 passed
Not enough points: refused with the points left, nothing charged src/test/journeys/guest-check-in.test.js › not enough points: refused with the points left, nothing charged · Same rule on both sides: checkin-over-allowance	3 passed
Only the club office can check in guests Same rule on both sides: checkin-admin-only · supabase/tests/guest_check_in.sql › Check-in: only the office sees today's list	3 passed
Find by name when there's no phone or no camera src/test/journeys/guest-check-in.test.js › find a member by name, then charge · src/test/journeys/guest-check-in.test.js › the camera can't be used: the message, and find by name still works	2 passed
Remove today's check-in: the points come back; booked guests and earlier days can't be removed here Journey: office-remove-guest-charge · supabase/tests/guest_check_in.sql › Check-in: a booked guest can't be removed here · supabase/tests/guest_check_in.sql › Check-in: yesterday's charge can't be removed	5 passed
The office sees each member's guests this year, with how often each has come (×3 stands out) src/test/journeys/guest-check-in.test.js › Members → a member: guests this year, each with ×times and points · src/test/journeys/guest-check-in.test.js › Admin → Guest points: under each member, their guests with counts · src/guest-counts.test.js	4 passed
The member is told: "6 guest points used today · 30 of 36 left", with the guests' names src/test/journeys/guest-check-in.test.js › the office charges; the member's drop-down says the points used and what's left; OK clears it · src/alerts.test.js › the club office charged my guests: points used today and how many are left; OK only · supabase/tests/guest_notice.sql › Guest notice: the member is told the points used and how many are left	3 passed
Members show their card, and see office check-ins in their guest list src/test/journeys/guest-check-in.test.js › Guest points: Show my card shows my QR code · src/test/journeys/guest-check-in.test.js › a guest checked in at the office shows in my guest list	2 passed

BOOKING

Handicaps from a file (club office)

The office exports handicap indexes from the club's own system as a CSV and uploads it. Members match by GUI number or name; the office sees what changes, and who wasn't found, before confirming.

Tested in this situation	Result
Upload, see the changes and who wasn't found, then update Journey: office-set-handicaps · src/test/journeys/guest-check-in.test.js › upload, see what changes and who wasn't found, then update them all · src/handicap-csv.test.js	20 passed
A file without a handicap column says so; nothing changes src/test/journeys/guest-check-in.test.js › a file without a handicap column says so, and nothing is updated	1 passed
Office only; one bad row refuses the lot supabase/tests/handicap_import.sql › Handicaps: only the club office can update them · supabase/tests/handicap_import.sql › Handicaps: one out of range refuses the lot, nothing changed	2 passed

BOOKING

Tee time requests further ahead

For days not open yet, members ask the club office for a time with a reason. The office books it or declines with a note; the member is told.

Tested in this situation	Result
Request, then cancel it Journey: request-tee-time · Journey: cancel-tee-time-request · src/test/journeys/journeys.test.js › 4. Request a tee time further ahead, then cancel it	13 passed
A reason is needed; at most 3 waiting; only your own can be cancelled Same rule on both sides: request-reason · Same rule on both sides: request-three · Same rule on both sides: request-cancel-own	6 passed
A member sees only their own requests Same rule on both sides: request-privacy	2 passed
Answered: told in a drop-down; marked read when Booking is opened src/alerts.test.js › two answered requests: two alerts, oldest answer first · Journey: request-answers-read · Journey: dismiss-tee-time-request	5 passed
The office books it or declines it Journey: office-book-request · src/test/journeys/journeys.test.js › 18. The club office login: opens on Today; let someone in, decline a request, see a disputed result, make a member hut staff	17 passed

BOOKING

Booked you in

When someone books you onto a tee time, a notice drops down saying who booked you in, when, and who else is playing.

Tested in this situation	Result
Everyone else on the booking is told; the booker isn't Same rule on both sides: booked-you-in · supabase/tests/booked_you_in.sql › Chris is told Pat booked him in, for that day and time · src/test/journeys/journeys.test.js › 20c. When I book others in, each of them gets a "booked you in" notice (and I do not)	4 passed
OK, or See my bookings Journey: booked-you-in · src/test/journeys/journeys.test.js › 20b. Another member books me in: I'm told who, when and with whom, and See my bookings opens them · src/alerts.test.js › someone booked me in: who, when and who else is playing; OK or See my bookings	3 passed
Not shown once the day has passed; gone if the booking is cancelled src/alerts.test.js › a "booked you in" for a day that has passed is not shown · supabase/tests/booked_you_in.sql › A cancelled booking takes its "booked you in" notice with it	2 passed
Moving a booking sends no new notice supabase/tests/booked_you_in.sql › A move sends no "booked you in" notice	1 passed

SCORING AND GAMES

The scorecard

One card for the group, shared on everyone's phone. Scores are saved hole by hole; two phones typing different scores are asked to check.

Tested in this situation	Result
Start a round and save holes; a refused save leaves the hole open to try again Journey: save-hole	2 passed
Two phones, one card: each sees themselves first; different scores are flagged src/card-view.test.js · src/shared-card.test.js	23 passed
Delete a scorecard: anyone on it can Journey: delete-scorecard · Same rule on both sides: card-delete-anyone-on-it	4 passed
A guest's handicap set on the card Journey: guest-handicap · src/test/journeys/features.test.js › a guest's handicap set on the scorecard	5 passed
Open holes: an event on some holes plays only those src/test/journeys/features.test.js › an event on holes 1–6 and 10–12: 9 holes on the card, 6 goes on to 10, the round ends after 12 · src/test/journeys/features.test.js › a general round still has all 18 · src/open-holes-scoring.test.js	11 passed

SCORING AND GAMES

Games on the card

Every game in the club's list can be played on the card: Stableford, match play, better ball, Sixes and more, for 2, 3 or 4 players, with shots worked out.

Tested in this situation	Result
A full round of every game: the result matches the rules src/test/journeys/games.test.js · src/scoring.test.js · src/games.test.js	57 passed
One against one on a four-ball card src/test/journeys/games.test.js › one against one on a four-ball card: just those two, shots off the lower of them; the result matches the rules	1 passed
Choose my usual game Journey: game-pref	2 passed

SCORING AND GAMES

Challenges between groups

A four-ball challenges another on the tee sheet, or one player challenges a player in another group. They accept, decline or suggest changes.

Tested in this situation	Result
Send a challenge; accept it; suggest changes; cancel it Journey: send-challenge · Journey: answer-challenge · Journey: counter-challenge · Journey: cancel-challenge	38 passed
One against one with a player in another group Journey: send-singles · src/test/journeys/features.test.js › accept a one-on-one from the drop-down: only the player asked answers	9 passed
Decline from the drop-down src/test/journeys/features.test.js › decline a challenge from the drop-down	1 passed

SCORING AND GAMES

Leaderboard of the day

Everyone's scores today on one board, on the days the club chooses. The office can switch it off for today.

Tested in this situation	Result
On by default; off today; off on chosen weekdays src/test/journeys/features.test.js › on (every day to start): Today at the club opens today's scores · src/test/journeys/features.test.js › off today: nobody sees today's scores · src/day-board.test.js	5 passed
An unconfirmed paper score shows with a mark src/screens/leaderboard-field.test.js › awaiting confirmation, or sent back	1 passed

SCORING AND GAMES

Halfway hut

After the 8th (or the last open hole before the 9th) members are asked if they'd like to order. The hut staff make it and say when it's ready.

Tested in this situation	Result
Order after the 8th; told when it's ready Journey: hut-order · src/test/journeys/journeys.test.js › 6. Start a round, count it for the Winter League (marker), save to hole 8, order a bacon roll	10 passed
Sold out, 3 waiting: refused Same rule on both sides: hut-sold-out · Same rule on both sides: hut-three-waiting · Same rule on both sides: hut-own-orders	6 passed
On fewer holes, it asks after the last open hole before the 9th src/test/journeys/journeys.test.js › 6b. Found in review: on holes 1–6 and 10–12 the halfway hut asks after hole 6 (hole 8 is closed) · src/hut.test.js	18 passed
Cancel my order before it's made Journey: cancel-hut-order	3 passed
Staff move an order along Journey: hut-order-making · src/test/journeys/features.test.js › halfway hut staff: today's order marked ready	6 passed

COMPETITIONS

Sign-up competitions

The club opens singles and pairs competitions for entry, with a closing date, a number of places and a fee. Members enter, withdraw, or say No thanks.

Tested in this situation	Result
Enter singles and pairs; withdraw Journey: enter-pairs · Journey: withdraw-signup · src/test/journeys/journeys.test.js › 11. Sign up for Men's Fourball with a partner, see it in Entered, then withdraw	17 passed
Not twice, closed, full, partner already entered Same rule on both sides: signup-not-twice · Same rule on both sides: signup-closed · Same rule on both sides: signup-full · Same rule on both sides: signup-partner-taken	8 passed
A partner already entered is told in the sheet, not behind it src/test/journeys/caching.test.js › says so in the sheet (not behind it), and you can pick someone else	1 passed
No thanks moves it to Declined, where it can still be entered Journey: decline-signup · src/test/journeys/journeys.test.js › 23. Events: No thanks moves a competition to Declined, where I can still enter it	2 passed
Fees: shown when entering; from the purse or the shop src/test/journeys/journeys.test.js › 25. The club office sets an entry fee and how fees are paid; members see it when they enter · src/fees.test.js	8 passed

COMPETITIONS

Knockouts

The club makes and publishes the draw; players report results and opponents confirm or question them; the secretary settles disputes. Rounds can be over fewer holes.

Tested in this situation	Result
Make, swap and publish the draw; spread the play-by dates Journey: office-make-draw · Journey: office-swap-draw · Journey: office-publish-draw · Journey: office-round-dates · Same rule on both sides: ko-swap-before-publish	15 passed
Report, confirm, dispute; only players in the match report Journey: ko-report · Journey: ko-confirm · Journey: ko-dispute · Same rule on both sides: ko-report-own-match · src/test/journeys/journeys.test.js › 12. Knockout: report my result, my opponent confirms, I go through to the next round	14 passed
Score the match on a card; the result comes from the card Journey: ko-score · src/test/journeys/journeys.test.js › 22. Knockout: score the match on a card from the draw; the result comes from the card; anyone can open the scorecard · src/knockout.test.js	26 passed
An unfinished card from an earlier day isn't shown as the match's card src/screens/ko-card.test.js › a card from an earlier day that was never finished is left out (it's no longer on the Scores tab)	1 passed
A round over fewer holes src/test/journeys/features.test.js › the club office sets round 1 to the front 9; the match is decided over those holes · Journey: own-knockout-holes	6 passed
The secretary sets a result Journey: office-set-result	4 passed

COMPETITIONS

Members' own events and knockouts

Any member can run an event, season or knockout for their own group of friends.

Tested in this situation	Result
Make my own knockout; delete it Journey: make-own-knockout · Journey: delete-own-knockout · src/test/journeys/journeys.test.js › 15. A member sets up their own knockout: picks the players, it's drawn, they organise it	15 passed
Make each kind of event, play it, see the leaderboard src/test/journeys/features.test.js › Individual Stableford for my group today: set up, play 18 on one card, the leaderboard has everyone · src/test/journeys/features.test.js › Team Stableford: set up two balanced teams, play, the board shows both teams · src/test/journeys/features.test.js › Four-ball team match play: teams, the draw, play the match on one card, the board shows the match result	3 passed
Count my round for my event as I start Journey: count-for-event-round · Same rule on both sides: event-round-locked	12 passed

COMPETITIONS

Club events, templates and repeats

The club office makes events for everyone or by sign-up, saves them as templates to run on any day, and repeats them weekly.

Tested in this situation	Result
Make a club event; delete it Journey: office-new-event · Journey: office-delete-event	4 passed
Templates: save, run on a day, change, delete Journey: office-save-template · Journey: office-delete-template · src/test/journeys/features.test.js › Run on a day: an event on that date with the template's settings; the template stays	5 passed
Weekly repeats, at most 52 Journey: office-weekly-repeat · src/test/journeys/features.test.js › found in review: a weekly repeat is at most 52 events	3 passed
Join today's competition as I start Journey: join-today · Same rule on both sides: self-entry-started	17 passed

COMPETITIONS

Leagues and events open for sign-up

The office advertises a league or event from a date, with a closing date and places. Members see spaces left, enter and withdraw; it stops at full.

Tested in this situation	Result
Enter and withdraw Journey: enter-signup-league · Journey: withdraw-signup-league	12 passed
Closed and full refused; hidden before it's advertised Same rule on both sides: event-signup-closed · Same rule on both sides: event-signup-full · Same rule on both sides: event-signup-not-advertised	6 passed
The last place goes while I'm looking src/test/journeys/features.test.js › the last place goes while I'm looking: told in a notice I can see, and it shows Full	1 passed
The office sees who's entered and can take someone off Journey: office-remove-entrant · src/test/journeys/features.test.js › the office sees who's entered, "1 of 4 places", and can take someone off	3 passed

COMPETITIONS

Leagues

Members count one round a week for their league before they start; the table builds week by week, and the top players can go into a knockout.

Tested in this situation	Result
Count my round as I start; a captain counts theirs Journey: count-for-league · Journey: captain-counts-round	18 passed
Locked after hole 1; one round a week Same rule on both sides: league-locked-after-hole-1 · Same rule on both sides: league-one-a-week	4 passed
Take my round out of the league before hole 1 Journey: leave-league	3 passed
The organiser starts the seeded knockout Journey: start-league-knockout · src/test/journeys/journeys.test.js › 17. At the end of a league, the organiser starts the seeded knockout	6 passed

COMPETITIONS

Team seasons and match days

Two teams play match days over a season: four-balls, singles and 3-balls, each day on its own holes and points.

Tested in this situation	Result
Set up a season, add match days src/test/journeys/features.test.js › set up a season with an end date and no match days yet · src/test/journeys/features.test.js › the organiser adds a match day with a four-ball and a singles · Journey: edit-begun-season	17 passed
The season board and each match src/test/journeys/features.test.js › the board: season score, match days newest first, a singles one a side, the organiser's buttons · src/season.test.js · src/match-scoring.test.js	51 passed
Who's playing on a match day: names readable on a phone src/screens/match-day-flow.test.js › each player row has the initials badge the row layout expects, so the name gets the full width	1 passed

CLUB LIFE

Friends and contacts

Members keep friends in the club and from other clubs (shared by a link), and star favourites, for quick booking.

Tested in this situation	Result
Add, remove and star friends Journey: add-buddy · Journey: remove-buddy · Journey: favourite-friend	6 passed
Save a friend from another club from their shared card; remove them Journey: save-contact · Journey: remove-contact · src/friend-link.test.js	22 passed

CLUB LIFE

My account

Members say which competitions they play in, choose their usual games and change their password.

Tested in this situation	Result
Plays in; usual games; password Journey: plays-in · Journey: game-pref · src/test/journeys/features.test.js › change password	6 passed

CLUB LIFE

Course guide, pins and weather

The course guide shows each hole and today's flags; Home shows the weather at the course.

Tested in this situation	Result
The office sets today's flags; the guide shows them Journey: office-publish-pins · src/test/journeys/features.test.js › pins: the office sets today's flags and the course guide shows them	3 passed
Correct a green's width Journey: office-green-width	3 passed
Weather src/weather.test.js	19 passed

PAPER SCORECARDS

Paper scorecards

A group that played on paper photographs its cards after the round. Names are cut off on the phone; Claude reads the scores; the uploader checks every player; a partner or the club office confirms the uploader's own score.

Tested in this situation	Result
The office switch: off by default; members see the link only when it's on Journey: office-paper-cards · src/test/journeys/paper.test.js › switched off, members don't see it	3 passed
Two cards, names cut off, read, matched, checked, saved Journey: paper-card · src/test/journeys/paper.test.js › two cards → names cut off → read → matched → each player checked (fixing hole 18) → Orla to confirm → saved	6 passed
Two columns set to one player; another course; the daily limit src/test/journeys/paper.test.js › two columns set to the same player: Next is off until it's fixed · src/test/journeys/paper.test.js › a card for another course: says so, with Retake · Same rule on both sides: paper-ten-reads	4 passed
Open holes: only those are checked and saved src/test/journeys/paper.test.js › an event on holes 1–6 and 10–12: only those holes are checked and saved · src/paper/reading.test.js	9 passed
Confirm, send back with a note, fix and resend Journey: paper-confirm · Journey: paper-send-back · Journey: paper-resend · Journey: office-confirm-paper · Journey: office-send-back-paper	15 passed
Who can confirm; the office when the player asked has left the card Same rule on both sides: paper-confirmer-on-card · Same rule on both sides: paper-players-only · src/test/journeys/paper.test.js › found in review: the player asked has left the card, so it's left for the office	5 passed
The reader: request and reply checks supabase/functions/read-scorecard/core.test.js · src/paper/crop.test.js	12 passed

CLUB OFFICE

Office: Today

Everything waiting for the office: people asking to join, tee time requests, paper scores to confirm and questioned results.

Tested in this situation	Result
Let someone in, or refuse them Journey: office-let-in · Journey: office-refuse-join	11 passed
A paper score left for the office src/test/journeys/paper.test.js › the club office confirms one left for the office, from Today	1 passed

CLUB OFFICE

Office: Members

Find a member by surname letter, add one, set halfway hut staff and the competitions they play in, reset a login, or delete them.

Tested in this situation	Result
Hut staff, plays in, reset login, delete Journey: office-hut-staff · Journey: office-plays-in · Journey: office-reset-login · Journey: office-delete-member	12 passed
Find by letter; add a member src/test/journeys/features.test.js › a letter shows only the members whose surname starts with it; All shows everyone again · src/test/journeys/features.test.js › Add a member opens as a small box, not the full side panel	2 passed

CLUB OFFICE

Office: Tee sheet

The office cancels or moves a member's booking with a note (everyone on it is told), and sets when tee times open.

Tested in this situation	Result
Cancel and move, with a note Journey: office-cancel-booking · Journey: office-move-booking · src/test/journeys/journeys.test.js › 21. The club office cancels a booking, with a note	24 passed
When tee times open Journey: office-booking-rules	3 passed

CLUB OFFICE

Office: Competitions

Run sign-up competitions again each year, change their settings, delete them, and manage the knockout draw.

Tested in this situation	Result
Run again, change settings, delete Journey: office-run-signup · Journey: office-save-signup · Journey: office-delete-signup	11 passed
Deleting asks first src/test/journeys/features.test.js › a sign-up competition: Delete, tap again, gone	1 passed

CLUB OFFICE

Office: Club settings

Name, colours and course location; how fees are paid; the leaderboard of the day; paper scorecards; the halfway hut; the office login.

Tested in this situation	Result
Name, colours, course location Journey: office-club-name · Journey: office-colours · Journey: office-course-location	9 passed
Fees, leaderboard days and today, office login Journey: office-fee · Journey: office-day-board-days · Journey: office-day-board-today · Journey: office-login	13 passed
The halfway hut: on or off, its menu Journey: office-hut-on · Journey: office-hut-add · Journey: office-hut-remove	6 passed

SIGNING IN

Joining and signing in

A visitor asks to join; the office lets them in. A new joiner whose email is approved signs up straight in.

Tested in this situation	Result
Ask to join; sign up when approved Journey: visitor-asks-to-join · Journey: new-joiner-signs-up · src/test/journeys/people.test.js	11 passed

BEHIND THE SCENES

Data kept on the phone

Lists that rarely change are kept on the phone, so screens open fast; a change anywhere is picked up on the next check.

Tested in this situation	Result
Kept, refreshed when someone changes something, cleared on sign out src/test/journeys/caching.test.js · src/api/cache.test.js	30 passed

BEHIND THE SCENES

Getting around

Every screen draws without errors and Back always gets you home.

Tested in this situation	Result
Every screen within two taps of Home; back always works src/test/journeys/wander.test.js · src/nav-stack.test.js	15 passed

Part 2 · Tests across the whole app

Check	What it means	Result
A deleted scorecard goes everywhere, for everyone on it Ripples	Deleting a card (unfinished or finished): it stops counting for the event, the league and the knockout, for every player on it; the results go back to “not started”; the other player’s Scores tab starts fresh.	6 passed
A deleted member goes from everything, and every screen still draws Ripples	Off every event, team, league captaincy and knockout; a paper score they were to confirm goes to the office; their scores on other people’s cards stay as history and show as “Former member”.	6 passed
A cancelled or moved booking Ripples	Cancelling takes the other player’s unstarted card with it (a card with scores is kept); moving keeps the players and tells them; a “booked you in” notice goes with the booking.	4 passed
A deleted event or competition Ripples	Its entries go; the cards that counted for it stay; it’s gone from Competitions.	3 passed
Office switches turned off Ripples	The halfway hut, paper scorecards and the leaderboard of the day disappear everywhere when switched off.	3 passed
Every refusal is seen, the screen isn’t stuck, nothing is half-saved People and refusals	Every action in the app, done by the person who does it (member, organiser, captain, club office, hut staff, visitor, new joiner), checked against every way the server can say no.	502 passed
The pretend server keeps the real database’s rules People and refusals	Every rule the journeys rely on is also proved on the real test database.	58 passed
Yesterday, today and tomorrow Dates	Times that have passed can’t be booked; days not open yet are requests; yesterday’s unfinished card isn’t today’s; notices for past days aren’t shown.	31 passed
Two phones on one card Two phones	Scores typed on two phones merge; a clash is flagged for a second look; nobody’s save is lost.	24 passed
Data kept on the phone The phone	A change on one phone is seen on the next check on another; signing in as someone else starts empty.	36 passed
Getting around The phone	Every screen within two taps of Home draws without errors, and Back always gets home.	4 passed

Found by this testing, and fixed

When	What was wrong	Test that now guards it
26 Oct 2026	Entering a pairs competition with a partner who had already entered: the reason was hidden behind the pop-up	caching.test.js › says so in the sheet (not behind it)
26 Oct 2026	Adding or removing a friend, and choosing a usual game, lost a refusal without saying anything	Journeys: add-buddy, remove-buddy, game-pref
26 Oct 2026	A refused hole save was lost and the hole stayed marked saved	Journey: save-hole
26 Oct 2026	Deleting a scorecard crashed before saying it was deleted	Journey: delete-scorecard
27 Oct 2026	A knockout showed a half-played card from an earlier day as the match’s card	ko-card.test.js

27 Oct 2026	Match day “Who’s playing”: names squeezed into a narrow column on a phone	match-day-flow.test.js (and the browser squeezed-name check)
27 Oct 2026	The club office refusing someone’s request to join lost a refusal	Journey: office-refuse-join
27 Oct 2026	Saving a member re-saved their details when only hut staff or plays-in changed, so a refusal left half of it saved	Journeys: office-hut-staff, office-plays-in
27 Oct 2026	Publishing today’s flags and correcting a green’s width lost refusals	Journeys: office-publish-pins, office-green-width
27 Oct 2026	Cancelling or calling off a challenge lost a refusal	Journey: cancel-challenge
27 Oct 2026	The pretend server was looser than the real database in 12 rules (closing dates, full lists, request limits, hut limits, knockout reporting, counting locks, sign-up advertising), so journeys could pass where the app would refuse	rules.test.js (26 rules)
27 Oct 2026	Deleting a member left them in events’ player lists, teams and league captaincies	ripples.sql
27 Oct 2026	A card that had a deleted member on it failed to draw for the other players	ripples.test.js

Part 3 · Before a demo: tap through on a phone

About 20–30 minutes. Sign in with each demo login (password: **password**), tick each step, and check you see what's expected. Do the club office steps on an iPad or computer.

live@test.com PASSWORD: PASSWORD

1. ☐ **Book a tee time:** Booking → + Add a booking → Pick a free time, add a friend → Confirm booking Expect: The booking is under Booking, with your friend on it.
2. ☐ **My bookings: cancel and change:** Booking → tap a booking → Delete booking → tap again Expect: It's gone from Booking and the tee sheet.
3. ☐ **My bookings: cancel and change:** Book a time with a friend → Booking → tap it → Remove next to your friend → Sure? Expect: Your friend is off; you keep the time.
